## SUMMARY

Strategic product leader with 9+ years of product management experience. Proficient in leveraging multiple frameworks & mental models to create a nuanced perspective of perceiving customer problems and solving them effectively to create tangible business impact. Proven performer as evidenced by the commercial impact of projects, double-digit growth rate of the marketplace revenue & enhanced customer NPS within current and previous experiences. Skilled in managing ambiguity with ease, leading through influence and driving innovation at scale. Strong believer in self-development through acquiring certifications (AI, ML and Advanced Product Management), mentoring other PMs and consulting startups.

## EXPERIENCE

### Principal Product Manager

Jan '21 - Present

*Zalando SE | European fashion eCommerce*

- Held strategic responsibility for the digital shopping journey for 4.8 Mn beauty shoppers across multiple Zalando Beauty markets in the EU. Spearheaded creation of a world-view & vision of the beauty proposition within Zalando and crafting a holistic product strategy.
- Led optimization of the 'product evaluation' phase for beauty customers shopping on Zalando with multiple new projects deployed on the beauty Product Detail Page (PDP) including advanced product descriptions, a beauty color selector, and PDP plus content. The launches cumulatively delivered a ~5% increase in PDP conversion rates and significantly boosted overall category revenue.
- Enhanced beauty product discovery through various experiments that adapted the existing fashion search to work efficiently for Beauty leading to ~8% improvement in successful search click-throughs.
- Launched enhanced content management capabilities for luxury beauty brands through the Sephora projects to launch their communication onsite and showcase their best assets to customers. This accelerated the luxury assortment negotiation and acquisition process.
- Currently leading an LLM-based personalisation tool providing apt Beauty recommendations and tailoring beauty shopping journeys.

### Product Coach & Start-up consultant

Aug '21 - Present

*Product School & LearnGuides*

- Coached and mentored 100+ product managers in advanced product management as top-rated instructor in Product School, USA.
- Hosted Masterchats format at Product Management Festival (PMF), Zurich delivering a talk on 'Advanced discovery skills for PMs' to 20+ PMs
- Spearheaded strategy creation for LearnGuides, reputed Ed-tech platform to power-through their ambition of educating a million educators worldwide in the domain of innovative & learner-centered education.

### Director Product Management

Mar '18 - Nov '20

*Blibli.com (Coviam) | Indonesian eCommerce unicorn*

- Led marketplace platform cluster (4 PMs) to ensure smooth shopping experience of 300 Mn+ customers and 100k sellers. Oversaw doubling of revenue and three-fold growth of orders during tenure
- Revamped Blibli Flash sale product to provide high-converting products using ML algorithms. The resulting product feature increased overall revenue by 5% due to improved product conversion
- Evolved existing features such as merchant rating, brand stores & product cataloging to enhance platform conversion and seller NPS (+8 pts)
- Elevated customer-seller interactions through features such as Product Discussion Forum and Seller Chat augmenting PDP conversion by 25%

### Product Manager Promotions and Head, Assortment

Feb '16 - Feb '18

*Voonik Technologies | Indian fashion eCommerce start-up*

- Led a team of 2 product managers and 15 account managers to build seller management product tools and optimize supply of 1 million SKUs
- Initiated and launched a data-based campaign management platform that enhanced promotion-attributed revenue by 32%
- Pivoted the supply strategy in collaboration to onboard and highlight only profitable products. NPS grew by 9 points in 6 months

### Customer Researcher

May '14 - Feb '16

*Kadence International | Tech-based Customer Research consultants*

- Established qualitative researcher who conducted multiple behavioural and branding researches for top brands in UAE, Saudi Arabia, Indonesia and Singapore. Pioneered neuroscience-based research using EEG devices and eye trackers to analyse TV ads in the Middle East market.

### Other Experiences

Aug '09 - Feb '13

- Founded an ed-tech learning platform tutoring engineering students in computer basics in collaboration with a team of 5 professors
- Software engineer in Infosys enabling the creation of the order management system (OMS) covering 1 million orders for Time Warner Cable

## EDUCATION

- MBA, Marketing and Strategy: IIM, Raipur
- Bachelor of Engineering, Computer Science: Terna Engineering college, Mumbai
